					1		Pricing: Pred of crange. <u>Propert Aurity</u> Washington: Carronny in the prototype stage; notype commencially available. Pricing: Not applicable. <u>View Availability</u> . Details on commercial availability have not been disclosed. Pricing:			
					1	1	Availability: Beta version available to a limited number of			
					1	1	Vertex Al customers using Imagen. Pricing: Not specified; likely included within Vertex Al			
SimConverse	Healthcare professional	Provide personalized healthcare	Multidaciplinary	Healthcare simulation	Customizable scenario creation	Using customized rubrics for assessment	services. Al-covered feedback system	Enhancement of Al feedback mechanisms	Simconverse Home	May require initial setup for customized rubrics
SIRCOIVEISE	education Clinical communication	communication training finable professional development across healthcare disciplines	Munusopinary	Health Care Simulation	platform	Using customizes rutants for asstantiants Implementing scenario-based beaming Providing immediate feedback	Real-time conversation simulation Customizable scenario library	construction en circular and residual construction of the construction of the specialized scenarios improvement of assessment rubrics	SIMCONVERSE NOME	Dependent on predefined assessment criteria Requires technological infrastructure
	training Interprofessional	across healthcare disciplines Facilitate standardized assessment via			Continue pre-cont actually	Aligning with professional development requirements Creating discipline-specific learning paths	Intelligent rubric assessment Comprehensive healthcare profession coverage	triegration of emerging healthcare communication protocols Cross-disciplinary learning effectiveness studies		May need regular updates to maintain current healthcare standards
	education Continuing professional	subrics Support onspire education from			1	Utilizing built-in assessment tools	Multiple educational level support Natural conversation flow without artificial pauses	All accuracy in professional assessment		Limited to communication-based scenarios
	development Healthcare simulation	undergraduate to doctoral levels finable customized scenario creation				l				
Misser William		and implementation Assist in brainstorming and refining	Maria	Marke C	f	Effective for generating multiple analysis to research a question	Such attack developer on North Co.	Improve user customization to enhance relevance of suatrestions	Many P. C.	Correct annihilities
Mirror Think	Idea Development	Assist in brainstonming and refining research ideas lidentify and trace research papers and	Multidisciplinary Multidisciplinary	Ideation, Concept development	Free Premium versions available (7.30	Effective for generating multiple angles to research a question Use in combination with similar tools like Connected Pages for a broad review	Early-stage development, limited user base Assilable with some limitations in free versions	Improve user customization to enhance relevance of suggestions Improved transability and semantic naturally analysis of references	Mirror Think Undermind Al	Current capabilities are general, may not always provide domain-specific death Limited to open-source and publicly available
Junearing		networks		Literature review, Reference mining	Premium versions available (7.30 to 26 USD/month)	AND THE STREET WAS AND THE STREE	THE PERSONS ASSESSMENTS IN THE VERSIONS		And the second Pol	Limited to open-source and publicly available references, lacks access to some proprietary databases
Connected Papers	Literature Exploration	Visual mapping of related research papers	Multidisciplinary	Finding related papers based on an initial seed paper	Free	Best for exploring connections in an unfamiliar field	Widely used for initial exploration	Integrate more sophisticated clustering algorithms to show connections	Connected papers	databases. Visualization is dependent on the availability of connections; limited for fields with less citation data.
Litmaps	Literature Exptonation	papers Tracking research topics over time	Multidisciplinary	Alarts for new papers, Evolution	Freemium	Helpful for staying updated on niche research areas	Stable with alert-based functionalities	Develop predictive models for emerging triends	Litmans	Relies on available data and user input for tracking,
				tracking						may not capture niche publications without user intervention.
ResearchRabbit	Literature Exploration	Interactive search and paper recommendation	Multidisciplinary	Explore retated research papers interactively	Freemium	Use iteratively to refine the network of relevant research	Used commonly for personalized search experience	Explore integration with collaborative features for group research	Research Rabbitsop	Focused on personal searches, lacks collaborative features for research stougs.
PaperQA2	Literature Exptoration	Retrieval-Augmented Generation (RAG) for scientific summaries) Scientific Research	Generating Wikipedia-style summaries of scientific topics	Open source on GitHub	Use for generating summaries of multiple papers at once	Recent tool, needs user familiarity with API access	Explore improving factual accuracy and expanding cross-domain capabilities	Github	Requires familiarity with command line and API setup, limited for those without technical background.
Perplexity	Literature Exploration	Answering research questions by	Multidisciplinary	Rapid Q&A based on scientific	Freemium	Best used for getting quick overviews of a topic	Emerging with rapid adoption	Explore connecting with proprietary databases for richer responses	Perplexity	Limited to open-access content, tacks deep insight for
Elicit	Literature Exptonation	notrieving relevant literature Helps automate research worldlows	Multidisciplinary	Sterature Literature review automation, Key	Freemium	Use to generate rapid liberature insights on a research question	Stable with consistent updates	Expand capabilities for systematic review automation	Elicit	niche subiects Limited access to proprietary databases, dependent
Heuristica	Literature Exptonation	and identify key papers Use All for synthesizing literature	Multidisciplinary	Summarizing papers, highlighting	Subscription	Ideal for creating summaries from multiple papers at once	Emerging tool with promising use cases	Incorporate deeper NLP models to extract nuanced insights	Heuristica	on public API integration Subscription only, not ideal for those without funding
Consensus	Literature Exploration	insights Summarizes scientific evidence to	Multidisciplinary	key findings Answering research questions	Freemium	Use for quickly understanding consensus in a specific research area	Gaining popularity among researchers needing quick	Expand to include more proprietary databases for comprehensive synthesis	Consensus	Limited to open-access articles; tacks depth for highly
Scholarcy	Literature Summarization	provide insights Provides concise summaries of	Multidisciplinary	based on published evidence Quick skimming of multiple	Freemium	Like for quickly extracting main points of an article	evidence synthesis Popular among researchers for quick liberature review	Expand ability to summarize more complex articles accurately	Scholarcy	specialized subjects Limited to open access articles; tacks the ability to
Scispace	Managaint teristana	research articles All assistant for writing and formatting	Academic Witing	research articles Manuscript formatting, Grammar	Freemium	Best used for formatting documents according to journal requirements	Competing with tools like Grammarly	Enhance formatting capabilities for more journals	Scianace	fully access paywalled content Freemium features are limited, tacks integration with
	Planuscript Associance	research papers		assistance						certain journals
PaperPat	Manuscript Editing	Academic language editing for non- native speakers	Academic Writing	Improving grammar, clarity, and style	Freemium	Ideal for polishing manuscripts before journal submission	Increasingly popular in academic settings	Extend free offerings to improve accessibility	PaperPal	Limited features in the free version, subscription needed for full access
Typeset	Manuscript Formatting	Formats manuscripts according to journal requirements	Academic Writing	Formatting documents for journal submissions	Freemium	Ideal for meeting specific journal format requirements	Competing with LaTeX and Overleaf for manuscript formatting	Add integration with more journals for formatting compliance	Typeset	Limited layout customization compared to LaTeX; premium features restricted
PCS Patient	Medical education and	Provide virtual medical simulation	Multidisciplinary	Healthcare simulation	Virtual platform accessible via	Regular use for skill development	Al-driven conversation engine with 30,000+ tearner	Expansion of Al conversation capabilities	PCS - Al-Powered	
Communication Simulators	training Healthcare simulation	training Improve healthcare provider-patient			screen-based interface Virtual Reality (VR) compatible	Integration with existing curriculum Combination with traditional training methods	question recognition Model-driven physiological responses	Development of more complex clinical scenarios Integration of new medical conditions and treatments	Healthcare & Patient Simulation Software	Carnot fully replace hands-on clinical experience Dependent on technology infrastructure Virtual nature may not capture all reances of in- person interaction
	Virtual patient interaction Clinical skills development	communication Facilitate clinical skills assessment			1	Use for both individual and team-based learning Implementation of automated assessment feedback	Full physical examination capabilities Multiple virtual environments Diverse avaitar selection	Enhancement of physiological modeling Improvement of assessment metrics		person interaction Limited to programmed scenarios and responses May require initial learning curve for users
		Reduce medical errors through better communication training			1		Diverse avatar selection Automated performance assessment	VR technology advancement in medical simulation		May require initial learning curve for users
		Offer accessible, scalable medical education solutions			1					
Dicom to Print (D2P)	Medical imaging 3D printing technology	Convert DICOM images to 3D printable models	Multidisciplinary	Healthcare simulation Surgical departments	FDA 510(k)-cleared software Stand-alone modular software	Following FDA guidelines Maintaining diagnostic quality standards Using cleaned printer-material combinations	Consolidated workstation for all processes Advanced seamentation tools	Enhanced automation in segmentation Improved material divelopment	Medical Additive Manufacturing	Specific printer-material combinations required for FDA clearance
,,	3D printing technology Surgical planning Medical device	Facilitate pre-operative surgical planning		Radiology departments Medical device design labs	package Compatible with various 3D	Using cleaned printer-material combinations Implementing proper sterilization protocols	Advanced segmentation tools VRvisualization capabilities Multiple export format support	Advanced visualization techniques Now medical applications	Software Opton	May remire initial training desnite user friendly design
	manufacturing Diagnostic modeling	Create diagnostic-quality anatomical models		Point-of-care facilities Medical manufacturing facilities	printers Integrated solution with 3D	Following biocompatibility requirements Maintaining regulatory compliance	Integration with various applications Streamlined worldlow design	Integration with emerging technologies Optimization of printing processes		Hardware-specific requirements Limited to diagnostic and planning purposes Dependent on quality of input DICOM images
		Enable patient-specific medical solutions		Pre-operative planning sessions	Systems printers VR visualization capabilities		User-friendly interface for non-technical users			Material constraints for biocompatible application
	Medical simulation	Streamline medical imaging workflow Provide hands-on clinical training	Multidisciplinary	Healthcare simulation	Multiple export format options Multiple tiers of functionality:	Regular skills assessment	Al-powered speech recognition	Enhanced Al communication capabilities	Nasco Healthcare	Speech recognition limits (depending on model)
Auex	Healthcare education	Develop critical thinking skills	Munusopinary	Health Care Simulation	Basic model with 250	Scenario-based learning	Full body patient simulator Multiple vital sign monitoring	critarioso Al communication capacitions Advanced physiological modeling Expanded scenario development	Alex/Axel	Recording time limitations
	Emergency response training	Practice physical assessment Train emergency response procedures Enable real-time patient monitoring			questions/day Advanced model with 1,000	Seam-based training Performance metrics tracking Continuous feedback implementation	Real-time CPR metrics Live streaming capabilities	Improved assessment metrics integration of new medical procedures		Simulation log archive time restrictions Some features only available in higher-lier models Requires certain optional components for specific
	Patient care simulation	Facilitate decision-making training			questions/day Unlimited model	Structured learning progression	Comprehensive physiological responses Multiple pulpable pulse points	Enhanced team communication features		procedures Some advanced features (TeamSpace, Virtual Patient)
					Customizable options (IV arm, female conversion kit)	İ	Intubation capabilities Blood pressure measurement			only available in specific models
