

Spring, Spring

Spring, spring

This is what the day brings, brings

As the flowers bloom, bloom

And the birds they sing, sing

Rainbows and raindrops the sky oh so blue

Trees to climb and the lovely morning dew

Spring, spring

Spring, spring

Trees are green, daisies are white

Spring season is such a delight

Raining almost every single day

But there is always time to play

Spring, spring

This is what the day brings, brings

As the flowers bloom, bloom

And the birds they sing, sing

Rainbows and raindrops the sky oh so blue

Trees to climb and the lovely morning dew

Spring, spring

Spring, spring

Spring is here, spring there

You can feel the happiness everywhere

Rows and rows of flowers outside

You can feel the weather from out and inside

Long walks across the street

So many people that you can meet

After school freedom rings

Spring, spring this is what the day brings

x 2

Spring, spring

This is what the day brings, brings

As the flowers bloom, bloom

And the birds they sing, sing

Rainbows and raindrops the sky oh so blue

Trees to climb and the lovely morning dew

Spring, spring

Spring, spring
